

Mac keyboard shortcuts

By pressing a combination of keys, you can do things that normally need a mouse, trackpad, or other input device.

To use a keyboard shortcut, hold down one or more modifier keys while pressing the last key of the shortcut. For example, to use the shortcut Command-C (copy), hold down Command, press C, then release both keys. Mac menus and keyboards often use [symbols for certain keys](#), including the modifier keys:

- Command ⌘
- Option ⌥
- Caps Lock ⌵
- Shift ⇧
- Control ^
- Fn

If you're using a keyboard made for Windows PCs, use the Alt key instead of Option, and the Windows logo key instead of Command. Some Mac keyboards and shortcuts use special keys in the top row, which include icons for volume, display brightness, and other functions. Press the icon key to perform that function, or combine it with the Fn key to use it as an F1, F2, F3, or other standard function key.

To learn more shortcuts, check the menus of the app you're using. Every app can have its own shortcuts, and shortcuts that work in one app may not work in another.

Cut, copy, paste, and other common shortcuts

Shortcut	Description
Command-X	Cut: Remove the selected item and copy it to the Clipboard.
Command-C	Copy the selected item to the Clipboard. This also works for files in the Finder.
Command-V	Paste the contents of the Clipboard into the current document or app. This also works for files in the Finder.
Command-Z	Undo the previous command. You can then press Command-Shift-Z to Redo , reversing the undo command. In some apps, you can undo and redo multiple commands.

Command-A	Select All items.
Command-F	Find: Open a Find window, or find items in a document.
Command-G	Find Again: Find the next occurrence of the item previously found. To find the previous occurrence, press Command-Shift-G.
Command-H	Hide the windows of the front app. To view the front app but hide all other apps, press Command-Option-H.
Command-M	Minimize the front window to the Dock. To minimize all windows of the front app, press Command-Option-M.
